## EDUCATION

- Kharkiv National University of Radio Electronics (2021 - 2022).
- Vytautas Magnus University (2022 - 2025).

## LANGUAGES

- Ukrainian - Native
- Russian - Native
- English - B2/C1
- Lithuanian - A2

## EXPERIENCE

### Vinted Earn (June 2024 - July 2024)

VIDEO DEMO

Greatly inspired by Vinted, I have developed a real working project - web game that integrates a clothing exchange system with a unique gaming component within the Vinted ecosystem. In the game you can earn Vinted coins, improve your clothes that allow you to earn more coins, complete achievements, exchange coins for a real discount in the Vinted store and invite friends. A project focused on attracting people and recognition of the company through an interesting game, the theme of which is clothing.

The application was written using: **Next.js, Typescript, React, Redux Toolkit, RTK Query** and **Node.js, Express.js, MongoDB, Google Oauth2, AWS, Jest**.

### Compo (Dec 2023 - Feb 2024)

VIDEO DEMO

Compo is a free web platform for developers and companies to showcase and purchase projects. Craft clear project descriptions easily, manage them effortlessly, connect with collaborators, and manage your project profile information. Explore and buy projects, and engage with discussions and job applications seamlessly.

The application was written using the **MERN stack**. Has payment operations (**Stripe**), roles, authentication (**jwt + bcrypt**), advanced API requests (**RTK Query**), **Typescript** architecture,

### Twittex (Sep 2023 - Nov 2023)

VIDEO DEMO

A web application similar to Twitter. I was inspired by this social platform and decided to create something similar. This web application helps people share their posts, interact with other posts by liking and commenting, and search for relevant topics. CRUD operations are used for posts and comments.

The application was written using: **Node.js, Express.js, MongoDB** and **Javascript, React, Redux, Redux Toolkit**.

## SKILLS

- **Html, Css, JavaScript, TypeScript.**
- **React, Next.js, Redux Toolkit, RTK Query.**
- **Node.js, MySQL, MongoDB, Docker, Jest.**
- **Solidity, Git.**

## ABOUT ME

Full-stack developer with 2+ years of experience. Write web applications using advanced libraries and technologies, ensuring stability and scalability. Eager to contribute coding expertise to a dynamic team. Passionate about sharing knowledge with peers. Looking for a Full-stack developer position. Let's connect and discuss how I can enhance your projects.
